Re: Letter of Support — Eesti Entrepreneurship Center

To Whom it May Concern:

On behalf of NFTE (Network for Teaching Entrepreneurship), I'm delighted to express our strong support for Eesti Entrepreneurship Center in Estonia, founded by Anurag Mittal.

NFTE has spent nearly four decades bringing entrepreneurship education to young people around the world, including a comparable judged-competition format already running at sustained scale, reaching 50,000+ students annually across 30 U.S. states and 26 countries.

We were genuinely enthused by the Center's commitment to youth entrepreneurship education in not just Estonia, but also Latvia and Lithuania. The Center fosters creating an entrepreneurial ecosystem for small and medium enterprises through a multitude of supports, such as mentoring and consulting. It is through these endeavors that these entrepreneurs hone their skillsets to establish sustainable business solutions while broadening their network for continued support. It is because of this focus that the Center and NFTE entered a collaboration.

Under this collaboration, the Center joined NFTE's Global Innovation Network, which brings together like-minded organizations to support youth entrepreneurship education beyond the borders of our respective countries. The Center is currently the only Network Member focused on further the work in Estonia, Latvia, and Lithuania. As a Network Member, the Center will promote the World Series of Innovation, a free digital competition for youth ages 5-23, to solve real world problems aligned with the U.N.'s Sustainable Development Goals. The Center will also be encouraged to collaborate and share best practices with the remainder of the Network and is eligible to send one student business team to NFTE's Global Showcase, an annual youth pitch competition and week-long learning opportunity.

NFTE fully supports this collaboration and is genuinely excited about expanding supports to young entrepreneurs across Estonia, Latvia, and Lithuania. Please don't hesitate to reach out with any questions.

Sincerely,

Stephanie Alvarado

Director, Global Programs
